

## Product highlights

### **lv** Swiss Life Investo Green Active

#### What is Swiss Life Investo Green Active?

You can take out our fund-linked pension insurance as a private pension scheme or with state funding (as a basic pension). This gives you high yields for your old age: It focuses on optimal opportunities for yields as well as the greatest possible flexibility. The tariff Swiss Life Investo Green Active gives you the freedom to choose from more than 130 individual funds to create and individually manage your personal fund selection. At the same time, you enjoy the special extra of flexibility: As long as your contract is active, you can tailor it to your needs.\*

#### That's especially important to us in our investments

##### **G**OVERNANCE (Corporate governance)

The companies that you invest in must meet their corporate responsibility towards society. Their guidelines must prevent bribery, corruption and fraud.

##### **E**NVIRONMENT

If companies treat their resources and the environment sustainably and with care, they make a positive contribution to their environment. This is also referred to as 'environmentally friendly'.

##### **S**OCIAL

The social aspect involves ensuring that monetary investments protect and improve our society's future. Good working conditions, human rights and peace should be guaranteed.

# Your benefits

## Additional insurances

### Professional disability cover

You can supplement Swiss Life Investo Green Active with our multiple award-winning professional disability insurance. Available with exemption from contribution upon request – in that case, Swiss Life pays the pension contributions for you.

\* During the contract, you can change the Green Investment plan initially selected at any time by selecting other sustainable funds (e.g. by replacing an ESG-fund with an ESG-Impact fund) or you can select other funds which do not comply with Articles 8 and 9 of the Transparency Regulation. In the latter case, you would leave the initial investment plan.
